

# We don't let any old Thomas, Richard or Harriet in.

## C++ and Java • Designers/Developers

Beaconsfield, Bucks £35k-£60k + Pre-IPO Share Options

At SealedMedia we develop and sell ground-breaking technology and web-hosted services which will be used by publishers all over the world to bring new and exciting digital content (eg. text, images, video, music) to consumers via PCs, palmtops and the next generation of net-enabled consumer devices. As a mass market application based on sophisticated streaming cryptographic technology, it promises to change forever the way we all use the Internet. It also means we need to employ the very best people the industry has to offer. This is where you come in.

At our development centre in Beaconsfield, Bucks., we have a number of opportunities for bright, enthusiastic individuals who want to make a real impact on the dot com revolution. You will be looking for a fun, stimulating and fast-learning environment where your creativity and flair for design and development can flourish alongside talented colleagues on projects that will inspire and bring out the very best in you – qualities that many other companies don't even need.

Do you want to get in?

Well, if you've got more than two years' object-oriented design and development experience using C++ or Java, ideally in a Win32 environment, then you've already got one foot in the door.

Experience of any of the following would be extremely advantageous:

- Class library development
- Distributed Internet or Intranet applications
- C++ and Java GUI development
- Visual C++/J++, SourceSafe, InstallShield
- High scalability and high throughput relational databases e.g. Oracle, SQL Server
- MFC, ATL
- HTTP, TCP/IP, sockets
- Swing, JavaBeans, ProtoView
- Security protocols (encryption, PKI, authentication, signatures etc)
- Development of multimedia viewers (text, images, audio, video)
- UNIX or MAC development experience
- Knowledge of CORBA or COM
